## 1. ESPA *Silenplus* – The greatest expression of efficiency and sustainability

The ESPA's *Silenplus* pump includes a frequency inverter with a major innovation in its operation to adapt it for usage in pools: the speed variation in the swimming pool working cycles.

— **Applications** Recirculation and filtering of water from swimming pools. Quiet-running. — **Motor** Asynchronous, two poles. IP 55 protection. Class F insulation. Continuous operation. — **Materials** Pump body, pump foot, impeller, seal mounting and diffuser in technopolymer. Motor shaft in stainless steel AISI 420. Mechanical seal in graphite and alumina. Motor housing in aluminium. O-rings in NBR.

10. Evopool®

## 2. Unique benefits

- Ultra-silent operation – 45dB
- More efficient filtering cycle
- High performance backwash cycle
- Automation of the pool filtering system
- Higher energy
- Higher cost savings
- Dry-running protection
- Easy installation and use

## 3. Main features

- **Espe evopool® Control System** = superior automation
- **Espe evopool® Filtration Plus** = superior filtration
- **Espe evopool® Backwash Plus** = superior backwash
- **Espe evopool® App** = superior management

## 4. Espa evopool® Control system

Espe evopool® Control System detects the position of the multiport valve and transmits it to the pump to automatically activate or deactivate the operation cycle depending on the position, achieving maximum ease and efficiency of operation.

## 5. Espa evopool® Filtration Plus

**Filter cycle optimisation:** effectiveness + energy savings = efficiency.

System with filtering optimisation to increase the efficiency, thereby electricity savings, with an added cycle to increase cleaning efficiency on the pool surface.

**EFFECTIVENESS:** work cycles

especially developed for its use in pools to get maximum effectiveness.

**SAVINGS:** up to 84% electricity savings over standard single speed pumps, with the resulting cost savings.

## 6. Espa evopool® Backwash Plus

**Backwash cycle optimisation:** effectiveness + water saving = efficiency.

Backwash system which, thanks to a specially developed cycle, increases process efficiency while **shortening cleaning time, drastically reducing the amount of water consumed** during the backwash process.

**EFFECTIVENESS:** reduction of backwash time and improved filter-cleaning efficiency.

**SAVINGS:** up to 58% water savings over standard single speed pumps.

## 7. Espa evopool® App

The pump under control from the smartphone:

- Simplifies the pump use
- Weekly timer
- Pump parameters management
- Energy savings calculation tool

	Swimming pool volume	Energy savings	Water savings during backwash	Estimated annual savings (€/year)	Carbon footprint
<b>Silen Plus 1</b> VS: Single speed pump 0,75 Hp	30 m <sup>3</sup>	 84%	 58%	<b>£288.76</b>	83% CO2 emissions reduction
<b>Silen Plus 1</b> VS: Single speed pump 0,75 Hp	50 m <sup>3</sup>	 82%	 58%	<b>£419.58</b>	81% CO2 emissions reduction
<b>Silen Plus 2</b> VS: Single speed pump 1,50 Hp	100 m <sup>3</sup>	 72%	 55%	<b>£772.56</b>	72% CO2 emissions reduction

This savings simulation has been estimated with the following data: 200 operation days per year – Electricity cost 0,198 £/kWh – Water cost 1,578 £/m<sup>3</sup>

The screenshot shows the website interface for evopool. At the top left is the 'evopool®' logo in red. To the right is the 'ESPA Innovative Solutions' logo, with 'ESPA' in red and 'Innovative Solutions' in grey. A language dropdown menu is set to 'Español'. Below the logos is a navigation bar with the following menu items: 'Evopool', 'Evolución', 'Innovación', 'Eficiencia', 'Confort', and 'Sostenibilidad'. The main banner features a red background with white wavy lines on the left and a blue background on the right. The text on the banner reads: 'ESPA Es la bomba de piscina Is the pool pump'. Below the banner is a 'Productos' section with three product cards. Each card contains an image of a pump and the text 'BOMBAS PARA PISCINAS' followed by the model name: 'Nadorself', 'Silen', and 'Iris'. Navigation arrows are visible on the left and right sides of the product carousel.

## 10. evopool® - The evolution in swimming pool pumps

ESPA launches the new *evopool*® technology, a breakthrough in efficiency and sustainability that we have integrated into the pool line, adding efficiency, performance and respect for the environment.

*evopool*® means progress, and as such it will now encompass all the improvements and innovation that ESPA has been developing and introducing in its products and applications for pools. It always guarantees maximum efficiency and sustainable treatment of energy resources.

Today and in the future, ESPA is *evopool*®.
